

Certificate Class E

Qualification of the manufacturer for welding steel structures according to DIN 18800-7: 2008-11

It is hereby certified that the firm	PMPoland S.A.
have at one's disposal in the welding plant	PL – 58-560 Jelenia Góra, ul. Fabryczna 1
the required personnel and equipment to carry out welding works for manufacturing load bearing steel structures in the following fields of application:	
Standards/Regulations	DIN 18800-7 DIN 15018
Welding Processes (Reference no. acc. to DIN EN ISO 4063)	111 Metal arc welding with covered electrode 135 Metal active gas welding, partly mechanized 136 Flux cored arc welding, partly mechanized 141 Tungsten inert gas welding, manually
Parent Metals	S235, S275, S355 according to 10025 Stainless steel according to EN 10088-2
Extensions/Restrictions	Only valid for the production of machinery equipment
Responsible Welding Coordinator (Surname, First name, Date of birth, Qualification)	Eng. Rakowski, Piotr, born 1965-09-27, EWE (EWF)
Deputy (Surname, First name, Date of birth, Qualification)	not applicable
Remarks	According to the respective valid "Bauregelliste" it applies: For building products the conformity has to be carried out by ÜH-procedure. For further remarks see reverse
Period of validity	from 2013-08-10 to 2016-08-10
Number of certificate	
issued on	2013-09-30 Richter/ck
Manager of the Certification Body (Name/Signature/Seal)	GSI – Gesellschaft für Schweißtechnik International mbH Niederlassung SLV Duisburg Dipl.-Ing. Rüdiger Nr. 13
General requirements see reverse	

General requirements

1. Before carry-out welding works this certificate – either as certified copy or photo copy – shall be submitted to the competent authorities issuing the building permit.
2. For advertising or other purposes this certificate may only be duplicated or published in full. The wording of the advertising material shall not be in contradiction to this certificate.
3. If the welding coordinator(s) mentioned in this certificate is (are) not longer with the company or if there are changes in the welding process or in essential parts of the facilities necessary for the welding works, the certification body has to be informed. If considered necessary a new plant inspection of the company will take place.
4. In case of doubt regarding the qualification of the company, an inspection and check-ups in the plant by the certification body without prior announcement are being reserved.
5. This certificate may be withdrawn at any time and with immediate effect without compensation supplement or modified if the conditions under which this certificate has been issued have changed or if the requirements laid down in this certificate have not been adhered to.
6. At least two months before expiry, a new application has to be submitted to the certification body if the qualification should be certified once more.
